

# COVID-19 Survey

Confirmed late-onset  
Pompe disease

16 years and older

Participate before  
Oct 17, 2022!

[info@worldpompe.org](mailto:info@worldpompe.org)

Over the last 2 years the COVID-19 pandemic has had wide reaching effects on people all over the world. To better understand the impact of the Covid 19 Pandemic on the worldwide Pompe community, the International Pompe Association and the Erasmus MC are undertaking a one-time international survey of Pompe patients. The purpose of this survey is to look at both the effects of the pandemic on the life-style of Pompe patients, as well as the effects of infections with COVID-19. We believe that it is critical to gather this data so that we can properly and timely document these effects and we would like to ask your help.

This study is open to all Pompe Patients over the age of 16. If you are interested in participating in the Survey and are in the US, please contact us at [info@amda-pompe.org](mailto:info@amda-pompe.org)
